2)

- A) Spectra Colorants is a manufacturer of water base pigment dispersions
- B) Our products are acrylic chemistry. Organic and Inorganic pigments are mechanically milled into liquids to create liquid dispersion. The only Sara reportable ingredient used here is ammonia (NH3). The equipment is cleaned with water mixed with soap. Our only waste stream through the years has been this water which we have not been able to reclaim along with finished products which we are not able to recycle. This waste stream is deemed "Non-hazardous".
